Martin Reprimended for His Way of Rid-The rain yesterday did not deter many from attending the races at Guttenburg. All the regulars were there, and the betting ring was well filled. The leading event on the card was the race in which Saunterer, Blitzen, Cynosura, Houston, and Gloster were to run. Blitzen, as a two-year-old, got in at the light weight of 76 pounds, and his owner, R. Bradley, thought he had so good a chance to win that he placed \$10 on him. Saunterer was looked upon as a sure thing, and was played by the talent accordingly. Nearly all the bookmakers laid 2 to 1 the field against him. Gloster got away in the lead, but at the end of a quarter gave way to Houston, who was well backed for the place. At the turn for home Blitzen went to the front, and made the talent sick at heart by beating the favorite by two lengths.

Irregular was the favorite in the opening race, but he was never prominent. Double Oross winning easily by two lengths from Joe Kelly. Martin's riding of the favorite was in-vestigated. He claimed that Circular inter-fered with him, and he was let off with a rep-

ferrod with him, and he was let off with a reprint and.
Alderman Man took the second race, but came very near losing to the Issaquene filly, who came on the outside with a tremendous rush, and would have won had the distance been a trifle longer.
Toano had no trouble in finishing first in the third race. Requefort beating the second choice, Gortie D. half a length for the place. Perlid took the lead in the fifth race and was never headed, winning, pulled up, by a length from Esquimau. Dago won the last race in good style. Summaries:

Arion's Accident in Early Youth.

Arien's Accident in Early Youth,

From the Bostos Courier.

The success of Arion, which trotted in 2:10% the other day as a two-year-old, has given the triends of Governor Stanford a chance for considerable fun at the expense of the miniature track. It seems that before it came Arion's turn to be sent to the kindergarten the little fallow got injured in one leg, which made him iams, and so he was allowed to run wild and untutored. He secaped the schooling on the miniature track, and no attention was paid to him until seven months since, when he was caught up and broken.

Another story that is told about Arion is that a party got a price on him hast spring, and the value then set on him by the farm was \$2,500. The track fell through, as the colt had an enlarged ankle, the result of the injury mentioned above. It may be worth while to consider the fact that there is no Wilkes blood in after the yearling, two-year-old, champion, nather in Bunol, champion trotter of the world, now in Direct, fastest pacer in the world.

The Canadian-Americana Are New Kicking Winning Ball, Blackpool, England, Nov. 15.-The Cana dian-American football team have at last the first twenty-four matches played they won four, lost eighteen, and two were drawn. In the last six games, however, they have won four, and two were drawn. It must not be forgotten that they had their hardest matches to play at first, and while they have lost a good many games, they have never been easily beaten even by their strongest opponents. From now on the calibre of the teams they have to meet will not be as strong as those they have played. Financially the trip has not been a failure, and there is no doubt about Good guarantees have been received, while in some cases one-half of the gate has proved to

be more than the guarantee.

The team appears to work in harmony and are playing a splendid combination game. They have dropped the American and Canadian style of play, and have gone in for the English style. The English style is short passing on the ground and combined play from the backs to the forwards. Painterrox, Nov. 16.—The attendance at the football practice games is growing smaller from day to day. This is due to the irregular hours of playing. "Nonpareli" and His Partner.

Jack Dempsey is a very cautious sort of a fellow, and when a firs reporter assed him yesterday what his opinion was on the merits of certain fighters he declined to give a direct answer. On one point, however, Dempsey had no hesitation in offering an opinion, and that was in relation to John L. Sullivan. "What do I think of the result of a fight between Sullivann and Slavin?" he repeated. "I think Sullivan can beat any man in the world, Slavin o anybody else. He is the greatest boxer and the greatest fighter that any country ever produced, and I shall never change my estimate of the man until somebody defeats him. When somebody does that he will be the greatest, but not until them will there be a superior to John L. Sullivan in my estimation." Dempsey also spoke well of Jim Corbett as a scientific man, bu nothing more.

Young Mitchell who is Dempsey's sparring partner, and who is an out and out Californian, said a rood deal about San Francisco affairs. Billy Maher, the Australian light weight, he declared, will never be allowed to box to a finish in a 'Vrisco club again. Maher has

Corbett, and that one was as willing to quit as the other. He also said that the Californians considered George Dixon to be the greatest little man that they ever saw, not only scientifically, but as a hitter.

"You sa: that Jackson should have a great chance with Slavin; what do you know about Slavin f' asked the reporter. In the same that the seporter. In the same that the seporter of the same that the seporter. In the same that the seporter of the same that the same that little farnham, but so did Tom Lees. Farnham, by the way, was the only man who ever beat Jackson. Slavin's digits with Gostello are what I judge on. One was a draw and the other a hard victory for Slavin. Unless slavin is another man from what he was in those days he is not in Sullivan's class. How was it that Farnham had the beat of Jackson? You must remember that Jackson had neither the experience nor the confidence necessary at the time to do what he could at his then best. More than that Jackson has, and I know it by what I have personally seen, improved immensely in the last couls of years. Travel and practice have done that for him. Still, I cannot but say that Corbett is the cleves. "If Corbett is the cleverest among the hig men, where does Sullivan come in, as a match for Slavin."

"Ob! say, you can't compare anybody to Sullivan. He is the cleverest and best of them all. I always leave the big fellow out when I make comparisons. I mean when he is at his best, and I believe hels there now. He isn't too old; that's all nonsense. He is only 34 years old now, and is taking the best care of himself. Fersons whom I trust frithfully told me, before I left the Pacific cosst, that John L. had not drunk a drop of liquer since a week or more before he left Melbourne. I saw him in San Francisco, and he looked in the very best of health and form.

"As to Savin." Mitchell went on. "he is not a spar-

d form.

As to Slavin." Mitchell went on, "he is not a spar, nor dues he pretend to be. He is essentially a
hier. He hits hard and depends upon his strength to
n battles. Sollivan is fully as stiff a pluncher, is more
ert, has an infinitely superior knowledge of the use of
hands, and is far the better general. Why shouldn't
do Slavin it" he do Slavin ?"
Dempsey and Young Mitchell opened at Hyde & Bebman's Theatre in Brookiya yesterday afternoon and
evening, and Dempsey got a warn reception. The house
was packed in the afternoon when he made his first appearance, and the speciators got up and cheered for
over a minute when the populas fighter came on. All
the seats for the evening show were sold shortly after
the doors were thrown open.

Capt. Cook has not yet heard whether or not Jackson will accept. It is not likely that he will, however, in view of the fact that the California Athletic Club now raises the offer of the National Club, as is shown by the following telegram sent to Capt. Cook to-day: "The California Athletic Club will give Jackson and Slavina \$12,000 purse, of which \$10,000 will go to the winner and \$2,000 to the loser."

GOOD FOR ANOTHER YEAR THE CENTRAL BODY OF THE A. A. U.

MEET BITHOUT ANY CLASH. Howard Perry Elected to the Presidency-Cary's and Other Records Turned Ove to a Committee-Changes in the Consti-intion-The Baseball Championship.

The annual meeting of the Central Body of the Amateur Athletic Union was held at the Astor House yesterday afternoon. The rumors that several of the more prominent members would be placed on the retired list were without foundation, the slate going through with but little friction. Every section of the country was represented but the Pacific slope. There was Fred Stearns of Detroit, the baseball magnate of "Big Four" fame, who looked as if he was glad to be out of baseball. His side partner was Anson D. Hartwell, from St. Louis, who came to the meeting with a Presidential who came to the meeting with a Presidential bee, and the astonishing news that the recent championship meeting at St. Louis had been run at a financial loss. Opposite sat Julius Harder, the young legislator from the North American Turner Bund, who is now looking after the World's Fair architectural department in Chicago. Little Howard Perry of Washington beamed upon all, and rang the electric button more than all the magnates combined. Jinx Taylor from Boston. who could run a bit in his day, was on hand with handsome Walter Stimpson, looking after New England's interests. Harry McMillan of Philadelphia, the many-time President of the Amateur Athletic Union, presided for the last time. "Father Bill." Curtis was on hand with a pile of documents, and chatted carnestly with C. H. Luscomb, the allied member from the League of American Wheelmen, while Secretary Sullivan appeared anxious regard-ing the outcome of the meeting. He was one of the officials scheduled to be knifed, but, as

usual, the job did not go through.

The old Board of Managers held the first meeting to wind up the affairs. This consisted in the main of referring cases to the new Board of Managers. The petition of the Man-hattan Athletic Club to reopen the 9%-second record case of L. H. Cary was denied, and his 9%-second performances were turned over to the new Record Committee for consideration. J. W. Rich's claim for his standing broad jump and W. C. Downs's quarter-mile performance were disposed of in the same manner. A proposition to add a special 125-pound wrestling class to the championship programme was referred to the new Boxing and Wrestling Committee, and the appeal to take the limit of four rounds from boxing contests went to the new Boxed.

Committee, and the appeal to take the limit of four rounds from boxing contests went to the new Board.

The Manhattan Athletic Club was allowed the privilege of holding the two-mile steeple-chase and ten-mile running championships of the A. A. U.

The Treasurer's report showed a balance of \$1.257.34.

The report of the Athletic Championship Committee showed a loss of \$187.30 on the St. Louis meeting, which had a reported attendance of 0.000.

A long discussion ensued on the baseball championship. It will be remembered that the New Jersey Athletic Club won the Eastern championship, and the Detroit Athletic Club the Western honors. J. E. Sullivan of the N. J. A. C. was chairman of the Baseball committee, and he fixed the dates for the final games. The schedule did not suit the Detroits, but, unfortunately, F. K. Stearns, their representative on the committee, was in Europe, and the objections on the part of the Western people went for naught. The New Jerseys were sent to Detroit at the A. A. U.'s expense. The representatives of the latter city refused to play, and the Eastern players went through the farce of reporting at the grounds each day, and the championship was awarded to them at a meeting which has since been reported illegal.

Yesterday the Detroits were represented and things ran more smoothly for them. The Board did not like to go to extremes, but the following significant resolution was adopted:

Restred. That on account of the missanderstanding concerning the baseball championship for Iswi, and in

ment a series of basebal games to be played in the spring of 1802, without expense to the Amateur Athletic Union.

It is almost certain that the athletic world will hall as champions the team that wins the series in the spring, irrespective of the banner now held by the New Jersey A. C. on a technicality.

Athletes tired of competing for medals will be pleased to learn that the necessary thirty days' notice has been amounced of an amendment to section 3 of article 10 of the constitution, which will make it read:

No prise shall be awarded to any individual club, committee or organization, or received by any athlete, except suitably inscribed wreaths, diplomas, banners, badges, medals, timepieces, mantel ornaments, or articles of jeweiry, silverware, table or tollst service.

The Board then adjourned and immediately proceeded toward an election. M. A. Cuming, a Metropolitan Association delegate, and F. W. Lord, from the New England Association, were admitted for a moment to see this done, and the new Board then went into executive session. The result of the election was: President, Howard Perry; Vice-Presidents, F. K. Stearn and Jinx Taylor; Treasurer, William B. Curtis; Secretary, J. E. Sullivan. Mr. Stearns was the choice of the Board for President, but delined the office. E. A. Rix, Olympic A. C. San tis; Secretary, J. E. Sullivan. Mr. Stearns was the choice of the Board for President, but declined the office. E. A. Rix, Olympic A. C., San Francisso, and J. F. Scanlan, Acme A. President Perry subsequently appointed the following committees:

The amendment to simplify the definition of a novice was referred to the Committee on Rules.

The Atlantic Association was adjudged to have made an erroneous decision in the case of an athlete whose release was refused by an A. A. U. club, and who then entered as an unattached athlete. The Atlantic Association ruled against accepting such entry, but the Board decided that they had no right to do so. The New England Association sent in a recommendation to the effect that the A. A. U. should pay the expenses of all delegates to its meetings. There is no doubt of the recommendation being acted upon favorably.

It was decided that the referee had power to change men from one heat to another at his option.

It was decided to strike out the National

change men from one heat to snother at his option.

It was decided to strike out the National Cross-country Association from rule 3. This means that any suspensions or other decisions of the N. C. C. A. will not be respected by the A. A. U. The matter came about as follows: The Boston Athletic Association advertised a cross-country run without receiving the sanction of the N. C. C. A. That body threatened suspension, and through the efforts of Simpson and Taylor the power to suspend from any association but its own was taken away. A future conference will be had.

The application of Fred W. Burns for reinstatement was laid on the table. Burns announces the results at all our athletic games, and under a strict interpretation of A. A. U. rules cannot compete. He was advised to eater games and compete under protest, which would bring the matter before the A. A. U. Upon recommendation of the Atlantic Association, the individual tug-of-war was stricken from the A. A. U. championship programme.

The Atlantic Association also made a recommendation that the various associations be termed "divisions."

Amendments to several of the rules were referred to a committee consisting of W. B. Curtis, H. McMillan, and C. H. Luscomb.

Paovidence, Nov. 16.—John A. Sullivan of California, and Eddis Cloniey of Cambridge are matched for a glove contest before the Rhode Island Athletic Association to-morrow night. An effort was made to get the Town Council to stop the fight, but it was unsuccessful. An appeal was then made to the Superme Court for an injunction, but this was denied by the Court. Now an appeal will be made to the Governor, but it is not thought that he will interfere.

Mobokon Mas the Handball Fever. The usual weekly entertainment at the Hoboten Handball and Racquet Court abounded in fine plays and close results, both at handball and racquet. The gallery was crowded, and, indging from the enthusiasm shown, handball particularly is taking hold fast in the lively Jersey city. One of the features of the day was a four-handed contest between "Scotty" and H. Williams against Larry Forde and Pat Fisherty. The latter played a strong game, and won by the following score:

nerviest men in existence. An incident that occurred during the great blissard of 1888 tells the character of the man. The wires and poles of the Bell Long Distance Telephone Company were down in every direction. Fulford, who was in the construction departiment of that company, had charge of repairing the lines between here and Boston. The Fresident of the company wired him to where he was working:

"An any will you be in Hoston was too busy to come and answer in person. Again came the question, "I was to see Fulford in person." Again came the question, "I was to see Fulford in person. Again came the question, "I was to see Fulford in person." The great pigeon shot jumped on a horse, and, riding to the station, asked what was wanted.

"When will you be in Boston?"

"In two days, sure, was the reply."

"In two days, sure, was the reply."

"In two days and the lines were in working order to Boston, but it took 400 men to do the business.

Fulford has always been found of a gun and dog. His oldest friends remember him as a tail, slim lad, with a gun longer than himself thrown over his shoulder and a white buildog at his heels in place of a bird dog. Being passionately fond of field shooting, he soon became an expert in bringing down runled grouse and quali. Then came trap shooting. His drist trap match was the could shot of his cose in his even. The was without the boy Fulford easily defeated. After that he shot only in the field until last spring.

The committee appointed by the Metropolitan Association of the A. A. U. to investigate the complicated squabble of the Long Island Amsteur Athletic League and several of its clubs held their third and fina meeting last night at the Astor House. The evidence is now all in and Freedent Mathewson will make a report at the meeting of the Metropolitan Association to be held next week. The testimony has generally been of a bearsay character. It is quite evident that J. N. Murray is a well-known professional, but it was not proven that the Frospect Harriers knew this when they chiered him. The committee says that not sufficient evidence has been submitted to prove the professionalism of W. W. Ryan, another Harrier. On the charge of conspiracy in the case of the runner Bartlett, the Frospects bave been adjudged innocent, and the charge of entering ineligible athletes is all that remains of the four accusations.

TOILET HINTS.

A clear complexion is the result of good health—not of cosmetica.

Cosmetics can be used in moderation to advantage, but they are never so perfect as the bloom which good health imparts.

A clear complexion is usually the result of good circulation, and good circulation is the good circulation, and good circulation is the steady flow of the blood through the system. When the blood is sluggish and the mind depressed nothing is so beneficial as a pura medicinal stimulant, and nothing so thoroughmedicinal stimulant, and nothing so thoroughing stimulates the circulation or keeps it in regular and perfect order as pure whiskey. While there are many so-called whiskeys, there is only one that is admitted to be a purely medicinal one; namely, Duffy's Pure Malt.

Druggists and grocers may try to argue to the contrary, because they make more money on cheap and inferior goods, but it is always best to bear in mind that the one which has been tested, tried, and proven by experience is the only certain one.
